- National Senior Certificate (2010)

Interests:

- Technology
 - Open source software
 - Cloud computing
 - Technology education
-

WORK EXPERIENCE

Freelance IT Technician & Support Specialist

2008 - Present

Independent Consultant

South Africa

- **On site and remote troubleshooting:** Delivered mobile technical support to resolve software conflicts, virus/malware removal, OS installations, and physical testing and repair.
- **Custom PC Building:** Sourcing and purchasing of components, setting up of computers, testing, cable management, software installation.
- **Network installation:** Performed physical network setups for clients, including the installation of Ethernet cabling and the setting up of routers/switches, as well as software configuration.
- **Security consultation:** Audited client devices for privacy and security risks, implemented adequate solutions to improve privacy/security.

Khula Dharma

July 2025 - February 2026

Contracted Operations Manager

Haga Haga, Eastern Cape

- Oversaw critical facility operations, ensuring consistent uptime for utilities (water/power/network) and site-wide infrastructure.
- Maintained Khula Dharma's network topology. Managed IP addressing schemes and subnetting to segregate traffic for the various homesteads.
- Managed the physical installation and termination of LAN cabling to extend connectivity across the property, utilising Mikrotik devices for reliable wireless coverage, as well as setting up Ubiquiti meshes, routers, switches, and other wireless access points.

Aggrego Data

April 2025 - Present

Digital Content & Data Specialist

Remote (US)

- Administered the company website, implementing SEO best practices and analysing traffic data to optimise content visibility.
- Curated and organised technical data from peer-reviewed scientific papers to build the company's core knowledge base.

Sidelink

December 2015 – May 2025

Senior Content Writer

Remote (South Africa)

- Writing between 10 - 25 articles a week. Includes both short-form and long-form content.
 - Strong focus on a mobile-friendly, active voice, while also maximising SEO.
 - High level of research on any topic; topics were largely focussed on technology.
-
